INTRODUCTION

Business Analyst and Product Designer with over 6 years of experience delivering digital products, business improvements, and user-centred solutions across education, recruitment, insurance, technology, and automotive sectors. Experienced in requirements gathering, stakeholder engagement, process improvement, data analysis, UX research, and product design. Proven track record of reducing operational inefficiencies, improving recruitment outcomes, and translating business needs into scalable digital solutions. Skilled at bridging the gap between business and technical teams to deliver measurable business value in Agile environments.

PROFESSIONAL EXPERIENCE

Business Analyst
(Veritas Education)

September 2023 – May 2026

- Conducted requirements gathering and process analysis that reduced teacher recruitment time-to-hire by 7.4%.
- Developed onboarding documentation and training materials, reducing onboarding sessions from 6 hours to 2 hours.
- Analysed recruitment data and improved job posting strategies, increasing applications by 5%.
- Created process maps and workflow documentation that reduced compliance errors by 30%.
- Facilitated stakeholder meetings with recruiters, HR teams, and management.

Business Analyst
(AH Classics)

February 2023 – August 2023

- Led process improvement initiatives reducing operational inefficiencies and vehicle downtime.
- Conducted market and customer analysis contributing to a 15% increase in sales revenue.
- Built reporting frameworks reducing data retrieval times by 25%.
- Collaborated with supply chain teams to improve procurement efficiency by 20%.
- Delivered actionable insights through data analysis and executive reporting.

Product Designer
(Axa Mansard)

January 2022 – December 2022

- Conducted user research and stakeholder interviews to identify customer pain points and business requirements.
- Designed wireframes, user flows, and high-fidelity interfaces for digital insurance products using Figma.
- Created and maintained design systems and reusable UI components to ensure consistency across products.
- Collaborated with developers, business analysts, and product managers to deliver user-centred digital solutions.
- Worked closely with development teams to ensure accurate implementation of designs and a seamless user experience.

Product Designer Intern
(Softcom/Eyowo)

March 2019 – May 2020

- Conducted user research, stakeholder interviews, and usability testing to identify user needs and pain points.
- Designed wireframes, user flows, and high-fidelity prototypes using Figma for web and mobile applications.
- Collaborated with developers, business analysts, and product managers to deliver user-centred digital solutions.
- Contributed to the creation and maintenance of design systems, improving consistency across digital products.
- Translated business requirements into intuitive user experiences that improved usability and user satisfaction.
- Supported product discovery activities through competitor analysis, user feedback analysis, and design validation.
